April 7, 2009

Shore Shot Pistol Range has recently signed contracts with several ammo manufacturers around the United States. This ensures us a continuous supply of ammo even with the national shortage. This will also give us the ability to eliminate the ammo and rental rules instituted last week and allow us to lower prices. Now we would love nothing more than to start this right away, but it looks like we are still a few weeks from receiving our first order. Unfortunately, we will have to continue with the ammo and rental rules for a little while longer (See below for the ammo and rental rules posted last week). All we ask is that you please remain patient while we wait on our first shipment. Thank you again for your understanding, your loyalty and your continued patronage at Shore Shot Pistol Range. We strive to keep our customers happy and it's people like you that show us we think we're doing a pretty good job.

Sincerely,

*The Shore Shot Pistol Range Team*

### *Ammo and Rental policy 4/1/2009*

**DUE TO THE NATION WIDE AMMO SHORTAGE, SHORE SHOT PISTOL RANGE HAS DECIDED TO TAKE THE FOLLOWING ACTION TO ENSURE OUR MEMBERS WILL HAVE AMMO TO SHOOT:**

- 1. All ammunition purchased will be for range use only. We can no longer permit any customers to purchase ammunition to take with them.**
- 2. All NON-MEMBERS interested in renting will only be allowed to select firearms chambered in either .40 S&W or .22LR.**

**NOTE: All MEMBERS and NON-MEMBERS can bring their own firearms in any caliber and purchase ammunition for range use. Rule 2 only applies to RENTAL guns for NON-MEMBERS. MEMBERS can still rent in any caliber.**
